

Praise for register of deeds

Just recently, I visited the Register of Deeds Office in Johnston County. I was researching my family history, and Craig Olive took time out of his day to help me. He showed us a computer station and how to use it to find what we needed. Mr. Olive was very helpful and friendly.

The day my husband and I went to get our marriage license, Mr. Olive came by to ask if we had any questions about the packet we had received. He informed us what we would need in order to get our marriage license. I thought that was very helpful.

Mr. Olive is a very helpful and very kind individual. I truly believe that he loves his job. Every time I have seen him, he is always smiling and asking citizens how they are doing. Thank you, Mr. Olive, for being so helpful and kind to me when I visited your office. I hope that all the citizens of Johnston County will go and see how you and your office are so willing to help.
